Hygiene facilities to satisfy the expectations of the modern washroom.

CONTOUR GEL FRAGRANCE UNIT

Fully fan assisted, this Gel loaded unit is designed to propel a constant stream of fragrance across the washroom. With the Gel being regularly renewed by our service staff, this unit will counteract any unpleasant odours, increasing the user's perception that they are using a hygienic washroom.

Dimensions:
Height 246mm, Width 85mm, Depth 94mm

CONTOUR AEROSOL FRAGRANCE UNIT

Using a washroom shouldn't be an unpleasant experience for the user, but often because of strong odours it can be. Here is a fully programmable unit designed to disperse pleasant fragrances at levels suitable for each specific location. Perfect for those areas such as reception, washroom and executive rooms when you need to create the right impression.

Dimensions:
Height 239mm, Width 85mm, Depth 98mm

CONTOUR VENDING MACHINE

This slim line vending machine is suitable for even small washrooms, so whatever the size of company your staff and visitors can cope with that urgent need without having to leave the premises. Our service staff will regularly stock your vending machines with both sanitary towels and tampons.

Dimensions:
Height 835mm, Width 310mm, Depth 172mm

CONTOUR TOILET/URINAL SANITISER

IN-LINE FLUSH SYSTEM

Connected directly into the plumbing system. Flushing action releases sanitising fluid throughout the toilet bowl.

DIRECT FEED SYSTEM

Sanitising fluid is fed straight into the toilet bowl or urinal. This system requires no connection into the plumbing.

Dimensions:
Height 185mm, Width 110mm, Depth 80mm

CONTOUR HAND SANITISER GEL DISPENSER

The hand sanitising unit dispenses a mild formulation, quick drying Gel and offers users an effective way of cleaning the hands as well as reducing infection risks from bacteria. Very convenient, there is no need for a water supply or drying facilities. This unit has a wide range of applications including first-aid rooms, kitchens, vets, dentists, doctors, schools, factory floors and anywhere where there is no hand wash facility close by.

Dimensions: Height 246mm, Width 85mm, Depth 80mm

CONTOUR TOILET SEAT SANITISER DISPENSER

The risk of cross infection in the washroom is a very real concern these days. With that in mind this toilet seat sanitiser dispenser will give you, your staff and customers real peace of mind.

Users can wipe the toilet seat with a quick drying Gel and be comfortable knowing they have greatly reduced exposure to bacteria and harmful viruses that can be easily transferred, causing sickness and absenteeism.

Dimensions: Height 246mm, Width 85mm, Depth 80mm

CONTOUR MIDI SOAP, MOISTURISER OR SHAMPOO DISPENSER

We've all seen it in a washroom somewhere at sometime, the bar of grey soap, a haven for germs, bacteria and cross infection. The midi soap dispenser puts an end to that.

Compact and ideal for moderate use washrooms, the Midi ensures there is always soap on hand so staff and customers can always wash their hands and further protect themselves against harmful bacteria and cross infection.

The Midi can also dispense a delicate and nourishing, hypoallergenic moisturiser or a rich but gentle Shampoo and Body Gel with a fruity fragrance. Ideal for gyms, office showers and hotel bathrooms.

Dimensions: Height 246mm, Width 85mm, Depth 80mm

CONTOUR MAXI SOAP, MOISTURISER OR SHAMPOO DISPENSER

The Contour Maxi is a large capacity soap dispenser that is ideal for large offices, shopping centres, airports, anywhere where there is a high throughput of people. Dirty hands are the most common way of spreading harmful bacteria that can cause serious illness. With the Maxi there is no excuse, its large capacity ensures there is plenty of soap to go around and demonstrates to your staff and customers that you care about their hygiene.

Perfect for gyms, hotel bathrooms and office showers, the Maxi can also dispense a hypo allergenic moisturiser suitable for every day use or a gentle Shampoo and Body Gel to leave the skin feeling fresh and clean.

Dimensions: Height 266mm, Width 115mm, Depth 110mm
